

# TAKING UTILITIES DIGITAL HOW TO MANAGE THE SHIFT

“WITH GREAT POWER COMES GREAT RESPONSIBILITY”

**SO WHAT  
SUPERPOWERS DOES  
THE NEW DIGITAL  
UTILITIES SECTOR  
HAVE TO OFFER US?**

## **SUPER- INTELLIGENT**

Smart technology is redefining the sector. From aspirations of a smart grid to the smart homes already gaining momentum around the world.

## **A REAL TRANSFORMER**

Utilities was the #1 critical industry undergoing rapid transformation in a recent Vertiv study.

## **IT'S EVERYWHERE**

Edge computing is going to be critical to allow service delivery closer to the point of consumption.

## **INVINCIBILITY**

Redundancy is going to be critical across a highly dispersed digital infrastructure. Smart technologies will demand almost constant uptime.

## **PREDICT THE FUTURE**

McKinsey has predicted the sector could see profitability climb by 20-30 percent if it's successfully digitised.
